

### 7.1.3 : Policy document on Environment and Energy Usage

The institution tries to adopt necessary measures to keep the environment clean, healthy and safe. Students and staff are motivated towards following environment friendly practices in their daily routine. College has been organizing several activities through its various instruments regularly.

All the faculty members and students are liable for being aware of the environment impacts and for continually striving to minimize these impacts as set forth in this policy.

#### Environmental and Energy Usage Policy

- Conserve energy
- Try to use renewable source of energy wherever possible
- Save and recycle water
- Save and recycle paper wherever possible
- Do not dispose e-waste , chemical waste in unscientific manner
- Manage waste generated inside the campus
- Train stakeholders to maintain cleanliness in the campus
- Promote awareness programmes to resolve environment issues
- Maintain electrical and electronics devices as well as the taps regularly
- Plant and maintain more plant species and spread awareness about them amongst society
- Discourage use of ‘single use plastic’ in the campus wherever possible to make the campus free from single use plastic
- Reuse old water bottles or purchase water bottles that one can refill instead of discarding a new bottle after single use
- Integrate ‘sustainability’ into our daily lifestyle and inspire fellow colleagues to do so.

Criteria 7.1.3 : Green / Environment, Energy Audit, Clean and Green Campus Initiatives & Beyond the Campus Environmental promotion activities
